The Garden Room Collection

A Room Outdoors

Our range of Garden Rooms has evolved through our dedication to always using the finest materials and providing our customers with the ultimate building. This range epitomises all that we do best. Garden Rooms are totally bespoke, we will design and build yours in full consultation with you at every stage. Whether it's for entertaining, a gym, hobby room, office, a games room or just for pure sanctuary; we all need a Garden Room.

Why Choose Us?

We have been making timber buildings for almost 50 years. We are experts in our field and still being family run our reputation is extremely important to us. We always put our customer first and we will always leave you totally delighted with your building.

We care about every aspect of the building. We constantly strive to ensure all our materials and techniques are the best that we can source and provide.

Our Joiners still hand make our buildings, combining the best of tradition and precision with modern design techniques. We are always in the market place ensuring that any improvements in products and components are implemented by us straight away. We partner a timber mill in North Sweden which ensures the unsurpassed quality of our timber. Our paint systems are proven to provide the best possible protection for exterior timber leaving you able to enjoy your Garden Room for many years. We install all of our buildings ourselves thus ensuring everything is done to our own exacting standards.

We take our environmental responsibility extremely seriously, we are an FSC® certified company, all the timber we use is replanted and traceable. We endeavour to have as little impact on the environment as possible and are very successful in this.

Our Garden Rooms look beautiful and made from timber they harmoniously nestle into your environment. Timber is a warm, comfortable and positive material to be in and around. The Garden Rooms are built for year round use so that you can enjoy all the seasons whilst escaping from the house. With very little to no maintenance, because of the quality of the timber we use and because of our excellent workmanship; we sell the very best in garden buildings.

Your Garden Room

A Garden Room brings a colourful third dimension and stylish design to your garden. They provide a getaway that can never be under estimated. An elegant room to dine, to relax; for hobbies and work or simply to entertain friends and family.

The collection features a variety of finishes in a range of muted colours. Weatherboard or planed, with a choice of different window and door styles to suit any particular tastes. The lining can be painted to create a bright and inspiring space and of course the lining, insulation and heating together combine to ensure that your Garden Room can be enjoyed all year round, appreciating all the different aspects of your garden.

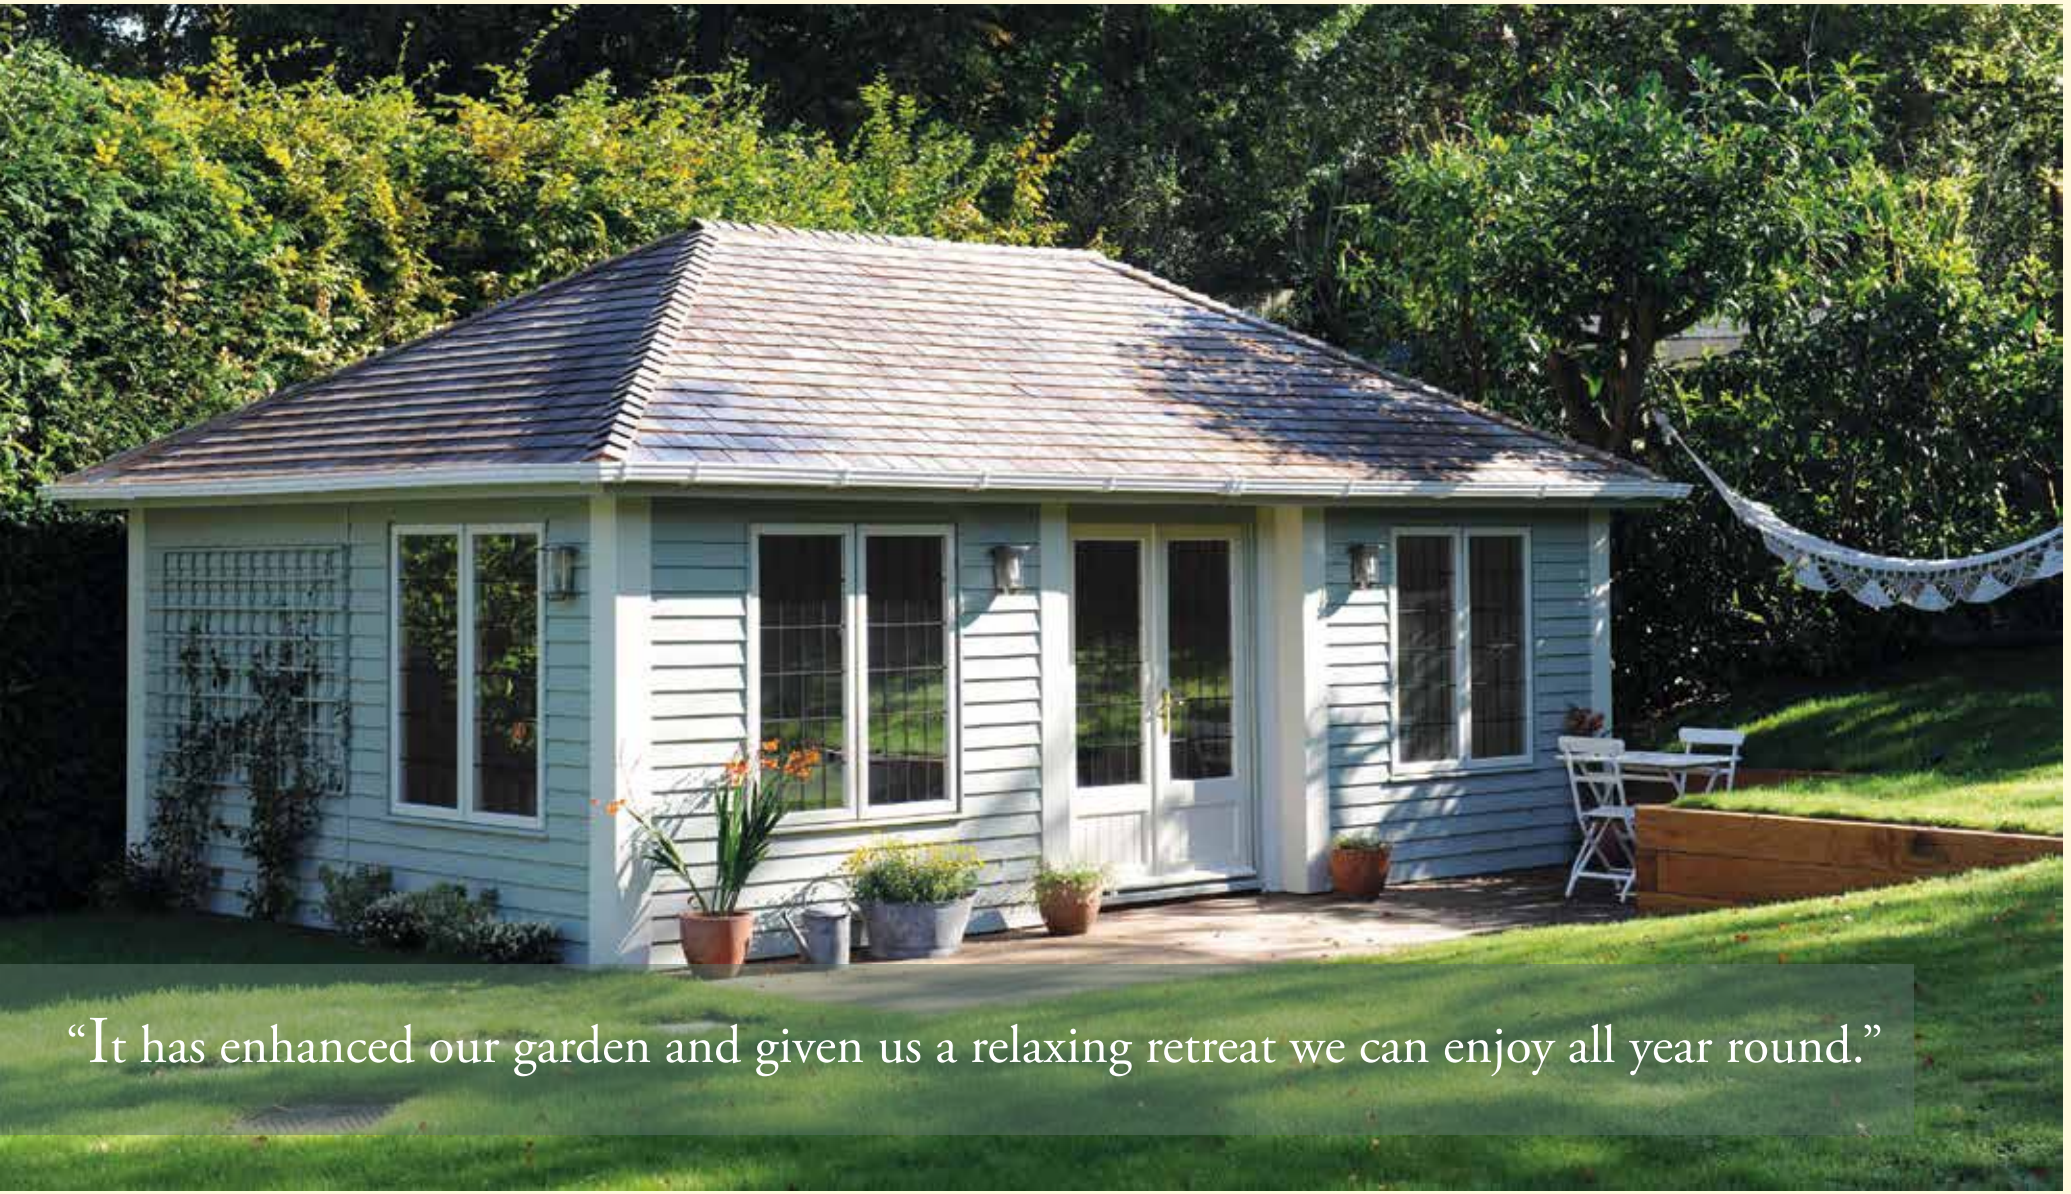

We install and finish all of the building ourselves. Go ahead and create yours. Leave the rest to us.

Create your Garden Room

We offer a range of options and finishes for you to choose from.

You can use our online configurer which takes you through a series of logical steps to create your ideal Garden Room. You can retain the number of the quotation and revisit at any time to make adjustments and ponder until you have arrived at your perfect design. Visit cranegardenbuildings.co.uk.

Alternatively please telephone our friendly team who will be only too pleased to help you and discuss your requirements. Our contact details can be found on the back of the brochure.

The first stage is to decide your size and style. If our standard sizes do not fit we will happily work to your dimensions. Choose between an elegant hipped roof or a Garden Room with a veranda which incorporates an apex roof design; wonderful for dwindling away summer evenings or perhaps a hot chocolate under a blanket in the winter.

"We love the additional entertaining space to enjoy with family and friends."

The Garden Room Collection | Crane Garden Buildings

Doors and Windows

Your Garden Room will come complete with double doors and 4 sets of opening windows to optimise the living outdoors feel. Door and window styles can be plain, leaded or Georgian. Velux windows can be fitted into an apex roof. All are fitted with toughened double glazing. We house our own Joinery works to make our own doors and windows, thus ensuring that the quality we demand is met. We can also build bespokely. Having total control over the quality and finish of our building is of prime importance to us.

You can choose to have your doors inset and with the addition of corner posts these features lend a sophistication to the design.

We finish our doors and windows in solid brass or chrome furniture.

"Our garden room has really changed the way we spend time in our garden."

Roof Coverings

Your choice of roof covering will enhance the style of building, your paint choice and can also compliment your garden. Both of these options add longevity to your building and mean no maintenance.

Cedar Shingles - We use only the finest quality Canadian Blue Label Cedar Shingles expertly tiled by our own skilled craftsmen to give a traditional finish which will 'silver' with age.

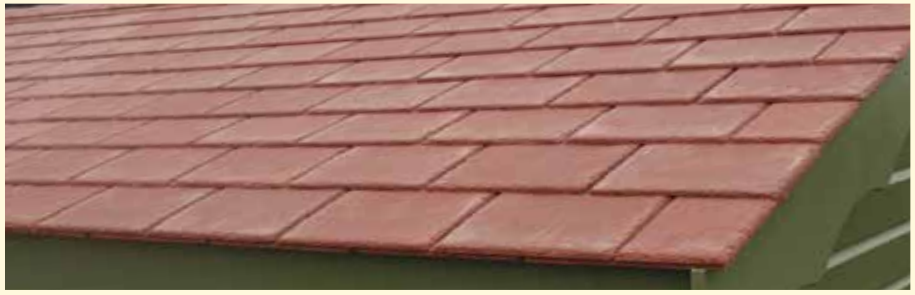

Slate Effect - These individually laid composite slates finally bring nature and technology together providing the ultimate protection against UV rays, wind, hail and fire. This roofing product carries a 50 year limited warranty. Opt for a more traditional grey or terracotta which looks great with the lighter paint shades.

Cedar Shingles

Slate Effect Tiles - Traditional Grey

Slate Effect Tiles - Terracotta

Exterior Finish and Paint

Timber of the highest quality is sourced direct from the timber mill we partner in Sweden, who are FSC® certified like ourselves. Our craftsmen hand make your Garden Room in our workshop. You can have the timber planed for a smooth shiplap finish or sawn for a rustic weatherboard finish. We will finish your Garden Room with black or white guttering.

Visit www.cranegardenbuildings.co.uk for more information

Interior Finish

We devote exceptional attention to the detail. We fit skirting boards, internal and external electrics and light fittings, heating, our floorboards if desired can be treated with a lacquer for protection and completion. We use beautiful solid brass or chrome door and window furniture. We can use heavy duty flooring and we can also partition space within your Garden Room for different uses.

Lining and Insulation

We fully insulate your Garden Room; including the roof, walls and floor. We then go on to line the building with timber cladding. We can either clad with our highest grade tongue and groove matchboarding leaving a natural, warm feel or we use a channelled, secret-nailed, tongue and groove matchboarding with 3 coats of paint; leaving a satin, off-white finish which achieves a clean, light and airy look for your Garden Room.

The lining and insulation finishes your Garden Room beautifully. It will also decrease noise levels and alongside the electrics and heater that we install will mean that you can use your Garden Room all year round, whatever the weather may bring. Your building will be an extra room in your garden.

Electric Pack

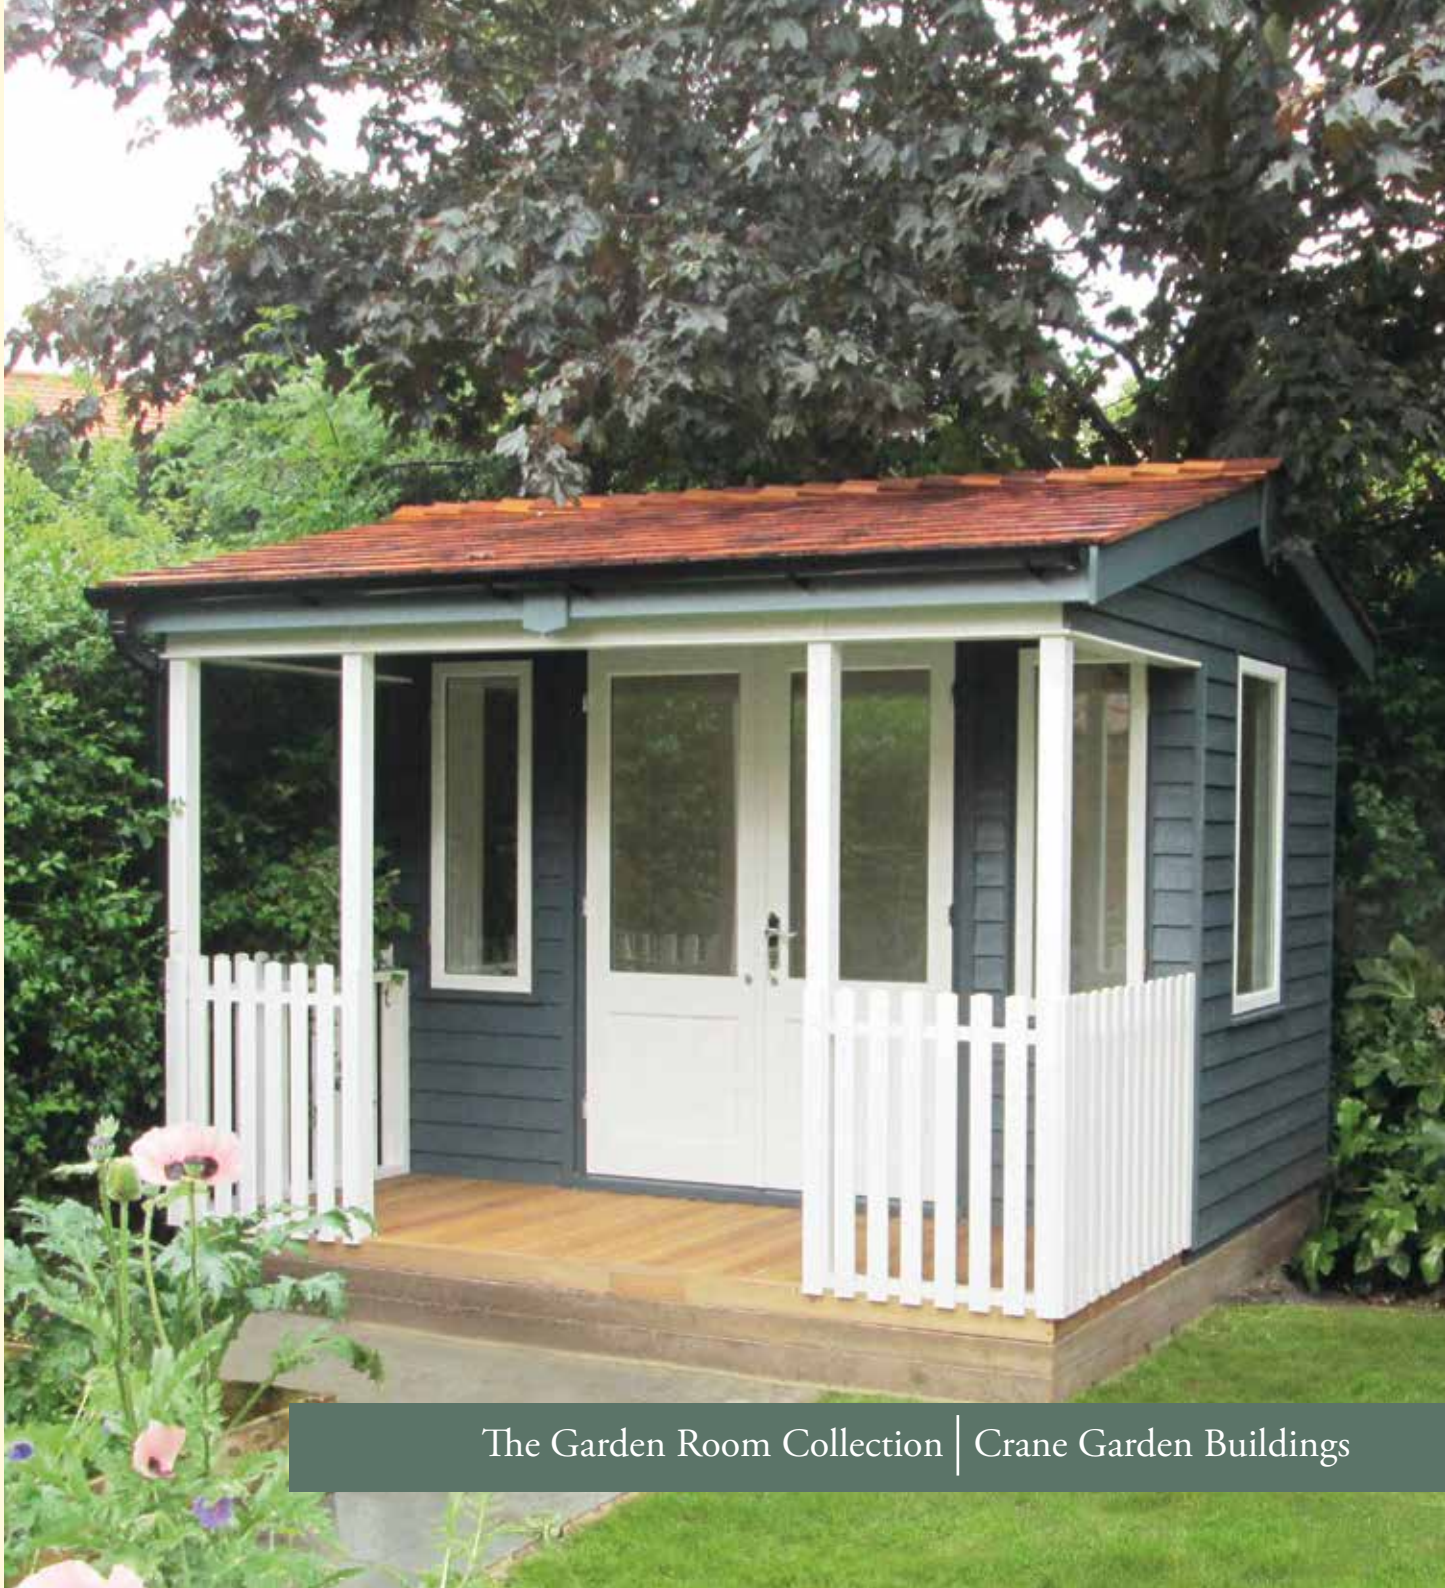

Your Garden Room will be kept warm and light all year round thanks to our Electric Pack, which is included in your building. Professionally fitted by qualified electricians, all internal wiring will be fitted behind the lining.

The electric pack includes:

1 Insulated consumer unit
4 Double sockets
1 External double socket
1 3 Spot chrome light fitting
1 Single 1 way light switch
1 2kw heater with timer and thermostat

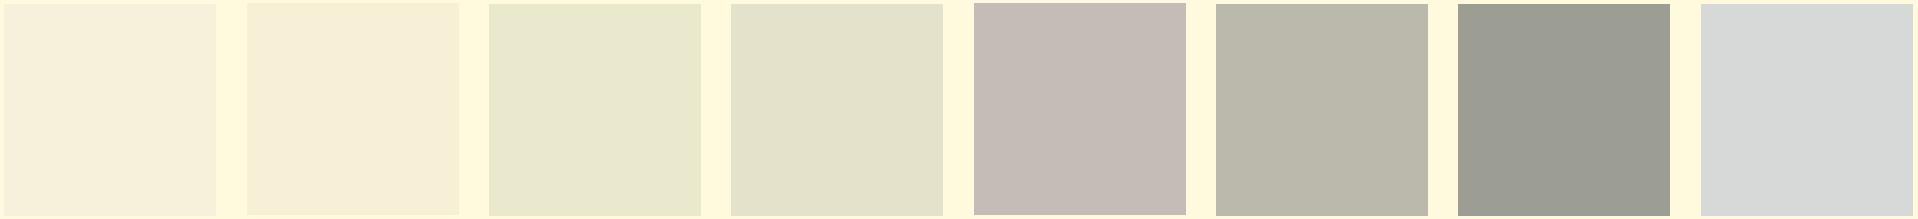

Installation

You will require a level concrete base to mount your Garden Room on. Our skilled installation team will deliver and install your Garden Room. This is normally completed within 3 days. They will show you around your building upon completion, ensuring that you are totally happy.

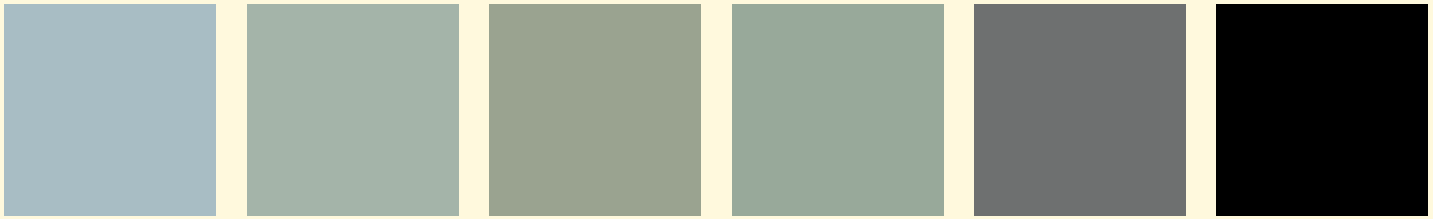

Valtti Paint System

Inspired by nature and the soft neutral tones of traditional colonial buildings our extensive colour range is offered in best quality, weather resistant Valtti paint. This four coat system has been proved to be the best possible protection for exterior timber. Valtti is fully opaque and will enhance any building giving an exceptionally durable, low maintenance solid finish.

Ivory | Cream | Sandstone | Twine | Taupe | Pebble | Ash | Saltwater

Sundrenched Blue | Verdigris | Sage | Lizard | Slate | Black

If our colours do not complement your surroundings it is possible to match any colour at an extra charge.
This colour chart is designed to provide an indication of the colours in our palette. It cannot be taken as an exact replication of colour.
However, we are happy to send out colour samples.
